

POST-OP INSTRUCTIONS FOR SKIN GRAFT OF FLAP CLOSURE

- *You DO NOT want to remove the bandage from the area.*
- *If there is drainage from the area you may use a Q-tip with a little peroxide on it and gently wipe around the area.*
- *Do not get the peroxide on the area itself.*
- *Your dressing will be changed at your first post-operative appointment.*
- *Please call the office if you experience any of the following:*
- *There may be swelling around the area and the graft site; you do not want to use ice on these areas as they are very fragile.*

**Excessive bleeding*

**Extreme throbbing*

Our office phone number is (801) 802-0120. There is an answering service which can contact Dr. Bishop or the physician on-call.
